17th International Conference on Engineering Applications of Neural Networks

2nd - 5th Sept. 2016
Aberdeen, UK

Call For Papers: Authors are invited to submit original research contributions or experience reports in the area of Engineering Applications of Neural networks. The proceedings of the conference will be published in the Springer CCIS Series. Extended contributions will also be considered for publication in a Special Issue of the Neural Computing Applications Journal (Springer). Full details about the conference are available on <http://www.eann.org.uk/eann2016/index.php>.

Social Programme will be organised for interested participants on 5th Sept 2016 to explore the beautiful and endless list of attractions of Aberdeen. See <http://www.visitaberdeem.com/attractions-and-activities/> for more information.

General chair: Chrisina Jayne c.p.jayne@rgu.ac.uk
Programme chairs: Chrisina Jayne and Lazaros Iliadis

Conference venue: Robert Gordon University,
Aberdeen

Proposals for **Workshops** that examine emerging, innovative, or otherwise provocative issues within the conference area are encouraged as well. Workshop proposals should include a 1-2 page summary of the topic and the names and affiliations of 3-4 panellists who have made a commitment to participate. A mix of industry and academic panel members is recommended.

Proposals for **90-minute tutorials** are also invited on topics within the conference area. Tutorial proposals must be at most 5 pages, they must identify the intended audience, and they must give enough material to provide a sense of what will be covered.
