

PRELIMINARY CALL FOR PAPERS

The aim of this 15th edition of the conference series on Web Information Systems Engineering is to provide an international forum for researchers, professionals, and industrial practitioners to share their knowledge in the rapidly growing area of Web technologies, methodologies and applications. Previous WISE conferences were held in Hong Kong, China (2000), Kyoto, Japan (2001), Singapore (2002), Roma, Italy (2003), Brisbane, Australia (2004), New York, USA (2005), Wuhan, China (2006), Nancy, France (2007), Auckland, New Zealand (2008), Poznan, Poland (2009), Hong Kong, China (2010), Sydney, Australia (2011), Paphos, Cyprus (2012) and Nanjing, China (2013). The proceedings of WISE'2014 will be published in 2 separate volumes by Springer in Lecture Notes in Computer Science series and the best papers will be recommended for publication in special issues of World Wide Web and other international Journals special issues.

WISE 2014 welcomes all submissions that fall in the domain of Web information systems engineering and topics of interest include, but are not restricted to:

Submission Conditions. Papers should be submitted in PDF format. The results described must be unpublished and must not be under review elsewhere. Submissions must conform to Springer's LNCS format and should not exceed 15 pages, including all text, figures, references and appendices. Submissions not conforming to the LNCS format, exceeding 15 pages, or being obviously out of the scope of the conference, will be rejected without review. Information about the Springer LNCS format can be found at <http://www.springer.de/comp/lncs/authors.html>. Three to five keywords characterizing the paper should be indicated at the end of the abstract. The type of paper (technical/empirical evaluation/experience/exploratory paper) should be indicated in the submission.

Publication. Accepted papers will be presented at WISE'14 and published in the conference proceedings, which is published in the Springer Lecture Notes in Computer Science (LNCS). Authors elected best papers from the conference will be invited to submit an expanded version for publication in the WWW Journal, Springer.

Venue

Thessaloniki is the second largest city of Greece, with a population of 1.000.000 people. Apart from its landmark, the White Tower, the city boasts important historical sites, museums and cultural activities. It is also known as a cosmopolitan and commercial center, with exceptional nightlife in its famous Ladadika quarter. The music scene in the city is vibrant and diverse and includes nightclubs, dance halls, discos, cafés and music bars, jazz clubs and more, along with a wealth of live performances, both musical and theatrical. In addition to important Byzantine and Archaeological museums within the city, travellers can visit the Archaeological site of Vergina (the capital of ancient Macedonia). This is the venue of Phillip's tomb (the father of Alexander the Great), a site full of remarkable treasures of art and culture. Also within a short distance (45 minutes by car) one can visit mount Olympus (the mountain of the ancient Gods) where "Dion" the holy city of ancient Macedonia is located. For these and many other reasons, Thessaloniki is the cultural capital of northern Greece! WISE'2014 will be hosted at the MET Hotel (<http://www.themethotel.gr>), located very close to the historic center of Thessaloniki, 17 km from "Macedonia" airport. A block of rooms has been reserved for the conference registrants.
